FACT SHEET

UETA and ESIGN Act

Both the United States Electronic Signatures in Global and National Commerce (ESIGN) Act, and the Uniform Electronic Transactions Act (UETA), have four major requirements for an electronic signature to be recognized as valid under U.S. law.

E-SIGNATURE

ESIGNATURE SOLVES INDUSTRY PROBLEMS OF ACCEPTING SIGNATURES

- **Intent to sign** Electronic signatures, like traditional wet ink signatures, are valid only if each party intended to sign.
- **Consent** to do business electronically
- **Association** of signature with the record
- Record retention U.S. laws on eSignatures and electronic transactions require that electronic signature records be capable of retention and accurate reproduction for reference by all parties or persons entitled to retain the contract or record.

PROOF OF DELIVERY

- Proof of delivery feature is most commonly used in distribution industry as drivers drop off their shipments allowing them to capture single or multiple signatures from receiver(s).
- eSignature allows you to configure your capture settings and store in the Acumatica document file system.
 Custom reports and email notification allow to share or retain record information
- Automates the process of shipping and electronic acceptance of the goods.

SIGNATURE CAPTURE

AUCMATICA PLUGIN: InfoSourcing's Acumatica Plugin eSignature works on latest version 5.0/6.0/6.1. The plugin requires distribution module (DIS) for activation of the plugin and can be deployed on SaaS, PCS or PCP deployment models. eSignature allows you to capture signature on documents on Sales Order/Quote or on Shipment screens.
